

Pantograph Door

Based on our ever popular Series 24 Weathertight door, the Pantograph door uses Seaglaze's innovative hinge design to allow for easy access when deck space is limited.

Ideal for side decks and gangways where the open door remains close to the superstructure to maximise deckspace. There are various options available for windows, handle and dog configurations. We can also design the door to match the shape and profile of your superstructure.

To complement the doors' surroundings, both the outer frame and door panels are anodised and can be powder coated in a wide range of colours.

Additionally customer materials can be overlaid to match the rest of the vessels interior.

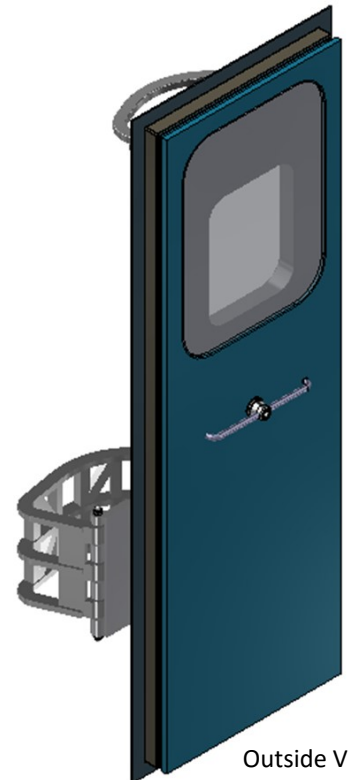

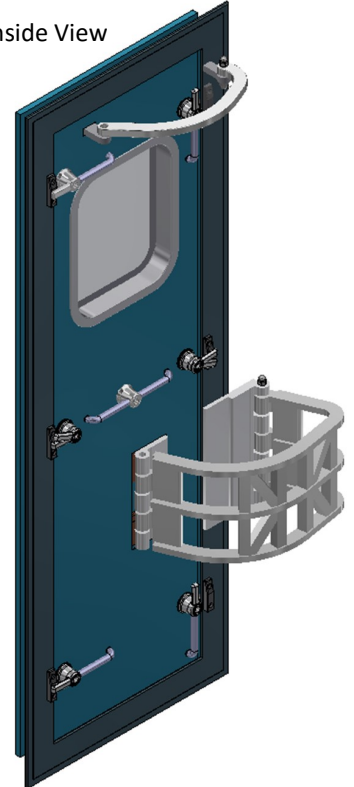

Window Options Include...

- Fixed
- Double Glazed Fixed
- Half Drop
